Advance Microsoft Excel

Tata Steel, Online
Apr 2020 - May 2020

PROJECTS

Web Based Puzzle

Jun 2022 - Jul 2022

<https://centipede-6.herokuapp.com/>

This is my personal project which is web based puzzle..
Develop on top of nodejs and MongoDB.
With custom API.

E-learning Management System

Jul 2020 - Aug 2020

In our E-learning Management System students and teachers
can easily login and teacher can upload notes, lecture notes
and references books and can create custom quiz for their
respective subjects.
Students can also ask doubt and give subject quiz.

Employees Management System

Jul 2020 - Aug 2020

In this internship project we have created a MVC Web
application to store all employees data in the database also
employees can edit his/her details.

Dashboard For Tata Steel Group Companies

Apr 2020 - May 2020

<https://sarala1420.github.io/mywebsite/>

In this we have to work on companies turnover and compare
and build a dashboard to present for easy access.

LOCATION BASED ATTENDANCE MANAGER

Dec 2019 - Dec 2019

<https://drive.google.com/file/d/1tPivAvBRK9Q6HIkDxsjyxjgPhkKbkMpm/view?usp=drivesdk>

We have to build a Web application in which a employee have
to punch their attendance Incoming and outgoing on this Web
application. And the application only works when the
employee is present inside the his department .
